### **Advance Community Health Offers FREE COVID-19 Mobile Testing at Pop-up Events**

**RALEIGH, NC** - In response to the COVID-19 pandemic, Advance Community Health is conducting mass community testing. The State of North Carolina has requested community testing in high priority and marginalized populations. As part of our mission to respond to the needs of our communities and reduce barriers to care, Advance Community Health is providing testing in several areas at higher risk. Testing is held outside of our usual clinic operations (extended hours, drive-throughs, evenings, weekends). No one will be turned away or charged for COVID-19 testing, but pre-registration is strongly encouraged to reduce wait times. We report all testing information to NCDHHS and post on our [website](#) and [Facebook](#).

Recently we have partnered with the Mexican Consulate in Raleigh to ensure access to testing for our Latinx communities. We will have two mass testing event pop-ups at their site:
